

Timimaizer – Coolant Timicor Fast

Timimaizer is a ready-to-use four-stage refrigerant based on monoethylene glycol without organic additives. Recommended for all refrigeration systems: passenger vehicles, heavy vehicles, agricultural machinery, construction machinery, stationary engines, etc. Excellent anti-freeze protection, it has a high anticorrosive power that guarantees the maximum protection of the entire cooling system (protects: copper, steel, aluminium, iron). Excellent heat exchange capacity which allows efficient cooling and prevents boiling of the coolant. Compatible with warranty seals and plastic parts.

Colour	Green	
Mixing Ratio		
Hardener		
Thinning	Not applicable – ready to use	
	Technical Data	
Initial Crystallization	- 23 °C	- 9 °F
Antifreeze protection	- 25 °C	-13 °F
Freezing point	- 27 °C	-16,6 °F
Boiling Point	106 °C	223 °F
SHELF LIFE	When stored inside in original containers and sheltered from sunlight and cold at temperatures between 5 and 40 °C, the product has a shelf life of 3 years after its date of manufacture.	
Observations	It contains a chemical agent that converts the Timimaizer into a bitter liquid to prevent accidental ingestion. Coolants and antifreeze usually have a sweet taste, but they are extremely harmful to your health and can even cause death when ingested.
